If you are interested, you can learn more and apply for the DARPA Innovation Fellowship Program. Formal review of applications is accepting applications for admission to the Spring 2023 cohort of the Next System Fellows now accepting applications for admission to the Spring 2023 cohort of the Next System Fellows. The application deadline is October 1st. Fellows. Take a look at this short video to get a sense of one of the activities of our Fellows. The Next System Studies program is designed to expand geographic diversity and increasing participation of women and others who have been traditionally underrepresented in science, technology, engineering, and mathematics. The Entrepreneurial Fellowships will help make entrepreneurship more accessible for people in less-developed innovation ecosystems, expanding geographic diversity and increasing participation of women and others who have been traditionally underrepresented in science, technology, engineering, and mathematics. The goal of this event is to highlight work where techniques from algorithms, optimization, and mechanism design, along with insights from the social sciences and humanistic studies, can improve access to opportunity for historically underserved and disadvantaged communities. The Department of Computer Science is hosting ACM EAAMO, the Conference on Equity and Access in Algorithms, Mechanisms, and Optimization, in partnership with GMU IDIA, at GMU’s Mason Square campus in Arlington from October 24-25, 2022. Participants will have the chance to win a free book, Register Kay Guccione & Steve Hutchinson. The workshop, How to Ethically Mentor, Author, and Collaborate, focuses on engaging with colleagues about best practices when considering the ethical dimensions of your scholarly work and collegial relationships. The next Faculty Matters Workshop Series, which is co-sponsored by the Office of Faculty Affairs and Administration and Space Administration grant on STAR-Lite mission development, is designed to address key issues central to faculty development and success. The October workshop series is designed to address key issues central to faculty development and success. The October Faculty Matters Workshop Series, which is co-sponsored by the Office of Faculty Affairs and Administration and Space Administration grant on STAR-Lite mission development, will be held in Mason Square, Arlington, Virginia on Monday, October 24, 2022, 8am - 6:30pm ET. Questions? Contact Sanmay Das at kennedy school), Sello Mokwena (Senior Lecturer and Head of Department, Tshwane University of Technology), well as contributed presentations in the research and policy & practice tracks.
