Dear Colleague Letter: Availability of Earth Observation Data for NSF-affiliated, we encourage you to submit your profile if you are not already affiliated. There is no financial burden to you or your departments for affiliation with the institute. Participation in IDIA does not prevent its members from being associated with other university centers.

Did you know that, as an IDIA faculty affiliate, you are eligible to:

- Compete for grants on 2D quantum and magnetic systems
- Receive support for their application for receiving the National Science Foundation grant on research: Catholyte molecular design for non-aqueous Mg-organic hybrid redox flow batteries
- Meet with 25+ researchers and 10+ faculty affiliates from 15+ universities to do research partnerships
- Learn more about technology development and energy justice initiatives
- Applications Due: May 15, 2023
- Applications will be reviewed on a rolling basis
- Deadline: May 18, 2023

Dear Colleagues,

Congratulations to:

- More information is available here
- This event will facilitate partnerships between businesses and federal laboratories, universities, and private-sector innovators—including government-funded startups—offering a wide range of green energy technologies.

Event Date: May 22, 2023

In order to inform and assist interested researchers, this DCL describes the process for gaining access to this imagery, the Aeronautics and Space Administration (NASA) Commercial SmallSat Data Acquisition (CSDA) Program. To request access to this imagery, interested individuals should submit a completed NASA CSDA Request for Access Form, available at the following link: [link] (links to external site).

This Dear Colleague Letter (DCL) announces the availability of high-quality Earth observations through commercial providers. This DCL provides an overview of the capabilities and applications of Earth observation data, including its use in various sectors such as agriculture, climate change monitoring, disaster management, and more. The availability of Earth observation data through commercial providers offers new opportunities for researchers and practitioners to leverage this information for their projects and initiatives. 

More information is available here.

Awards

- ARLIS Support for IARPA’s STG AI-ML Solutions Program
- Awardee: Johnson, H. (May 15, 2023 to May 22, 2023)
- More information is available here

Funding Opportunities

- Opportunities: 
  - Internally funded
  - Externally funded
- More information is available here
